

TEXAS INSTRUMENTS CALCULATORS 1986

Calculators for home, office and retail.

Calculators... ideal for today's needs

Times change and so do calculators. Texas Instruments is constantly working to develop calculators which respond to today's needs. From high-fashion hand held calculators, most of them light powered, to desk-top printing calculators for more comprehensive use, each incorporates the latest technology and traditional quality. The result is a range of calculators which are both stylish and easy to use. Examine the range of colours and finishes, the streamlined styling, the large keys with a comfortable feel, the well-designed keyboards and the easy to read displays... these features represent the latest in design and convenience. Texas Instruments calculators for home, office and retail solve problems and make your life easier.

TI-1795
Simple and efficient
This small solar-powered calculator is ideal for desk-top or counter use. Extra large 8 digit display (with 9 mm high characters) is tilted for easy readability. 4 basic functions, memory, +/—, \sqrt{x} and %.

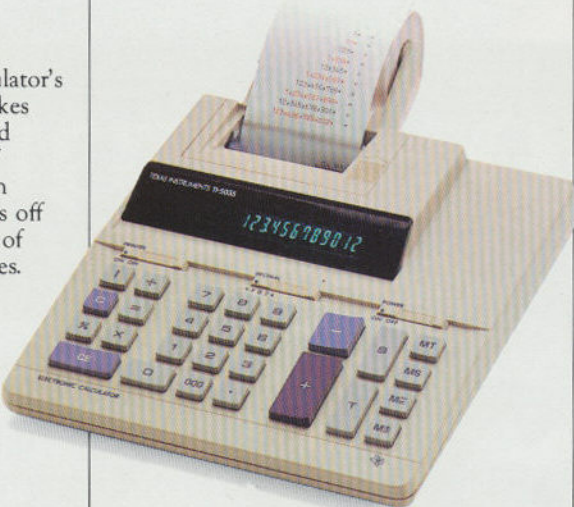

TI-5024/5029
The latest in ease-of-use
Ten digit easy to read display with separator every three digits. Two calculation registers, memory, % and

decimal selection. Large keys, high quality print-out. Extra large liquid crystal display for TI-5024, fluorescent green display for TI-5029. Battery operated.

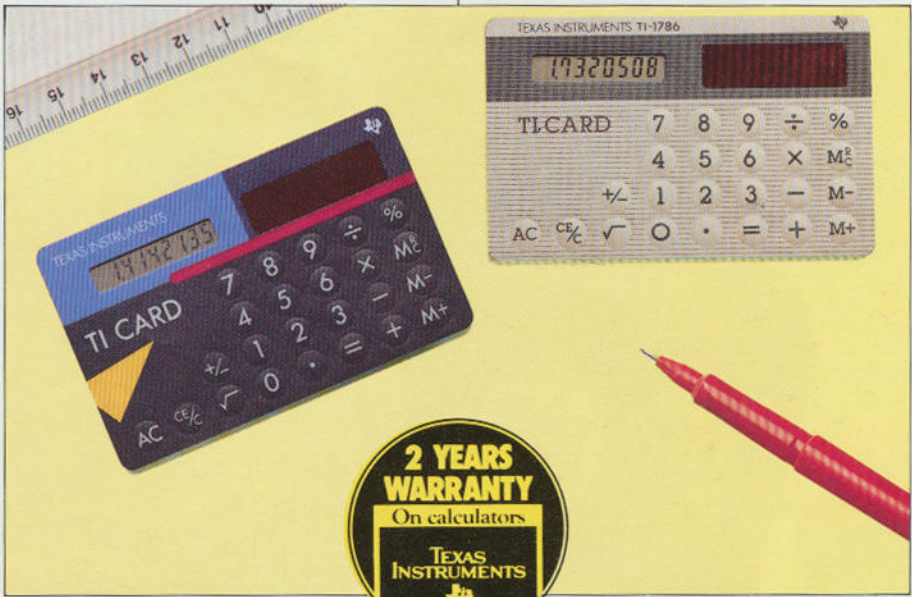

TI-5024 KIT
